ABOUT US

DNYANSAMPADA SCHOOL an institute of Sampada Vidya Pratishthan, is a true confluence of various streams of thought. It aims at providing modern education to children with effective emphasis on the practical knowledge and wisdom enshrined in our tradition and cultural heritage.

Our Indian culture teaches us all about human life. To understand the age old-values of Indian culture and to give your child a glorious opportunity to live a secure and stable life in this changing scenario, it is essential to educate him in a unique manner. It is we who are now providing such opportunities to the new generation, to ensure a better future for humanity and in turn, for India.

As per New Education Policy the teaching & learning is conducted in interactive manner, classroom sessions contain fun, creative, collaborative and exploratory activities for students for deeper and more experiential learning.

OBJECTIVES

Sampada Vidya Pratishthan is a group of professionals running Dnyansampada School.

Our main objectives are :-

To impart knowledge that gives students a true vision of life for greater success in future.

To make students capable of facing all challenges of life efficiently and to inculcate self-sufficiency so that they can build their own future.

To Develop socially conscious BHARTIYA CITIZENS of tomorrow who will provide enlightened leadership based on nationalism.

The objectives of the school include many more extra - curricular and co-curricular activities that develop a student's individual capacity in different areas such as communication, environmental awareness, sports etc.

Social bonding through Vyakhyanmala

TEACHING METHODOLOGY

Ideal student teacher ratio to ensure personal attention.

Teaching staff is highly qualified and fully dedicated towards the aims & objectives of the institution.

Learning is through project work, discussion, and library consultation.

Modern techniques of teaching & learning - involving use of Audio visual teaching aids, charts, diagrams, 3-D models are employed to provide understanding of the subject and to develop creativity in students.

Play way method of learning for pre-primary classes.

Computer education facilities from Std. I to compete the advance world with good set up of computer lab.

" I hear & I forget, I see & I remember, I do & I understand" this helps our students in the Science and Maths lab.

Learning by doing..
